WORKMEN'S DWELLINGS.

Mr. Alvear, the active President of the Municipality, has introduced a project before the Board over which he so successfully presides which will meet with the most unanimous public support, and which, if properly carried out, will endear his name to the workmen of Buenos Ayres. His project is to erect in certain parts of the city, on Municipal property, model dwelling-houses for workmen in town, who are at present living as best they can in miserable "conventillos," paying for the rooms or premises which they occupy an enormous rent that, on an average, yields to the owners of these buildings from 18 to 20 per cent. on the capital invested.

We trust Mr. Alvear will favour us with a copy of his excellent project, to publish in English, as, although the English community in this city, for the most part, move in a better and higher sphere than that assigned to the tenants of conventillos, still, model workmen's dwellings have been so long and so successfully tried in England, many of our readers may be able to offer the Lord Mayor their views and experiences, which may help to further a cause that all nationalities must desire to promote.

When we take into account the remarkable and almost unprecedented earnings of all the working classes in town, their superabundant means when compared with similar classes in other countries, and yet their miserable accommodation in these objectionable conventillos, it must be admitted that Mr. Alvear's project comes betimes and meets a Municipal want long felt in this city.

Whenever we experience any description of epidemic disease in the city, these conventillos are invariably found to be the nest and head-quarters of contagion, and not unfrequently we have seen scores of these places closed by the police and the tenants turned out to migrate to other quarters, in the suburbs or elsewhere. When the danger is passed, the tenants return to their old quarters; and conventillos that have been decimated by fever, cholera, etc., are to-day as full as if nothing of the kind had ever occurred in those heated and over-populated yards.

Crime has also gone hand-in-hand with contagious disease in these conventillos; and, although it would be a very serious injury to property holders to summarily close up every conventillo in town, still in a moral and hygienic point of view, the city would be a great gainer if these over-peopled yards could be turned to other and better uses.

Perhaps one of the most *triste* of Municipal sights is to visit one of these conventillos in the middle of the day and see the numbers of little children all huddled together, the mothers, for the most part, out washing and the fathers working as "changadores" or cartmen in the different parts of the town.

In any other well-regulated city such a state of things would not be long tolerated; but here in Buenos Ayres we are all so busy with our affairs that few, very few, of us have time to look into such matters. It is calculated that there must be at least 20,000 people living together in these conventillos, and this miserably-housed population is always on the increase.

Mr. Alvear proposes to erect decent and commodious dwellings in the outskirts for workmen and their families, to give to each family, and at a rent less than they are at present paying, good, roomy, well-built, well-ventilated dwellings.

The Municipality owns large sites at various points admirably suited for this purpose; and as the project is now before the Board for consideration, we hope to see it passed without delay, and a beginning made in so excellent a direction.

MONTEVIDEAN IMBROGLIO

Some further light seems to dawn faintly on the Montevidean imbroglio, in spite of the close watch that scans every telegraphic message from the Mount. There is a sphynx-like appearance in every item of news from Montevideo. The laconic facts appear to embody vastly more than appears at the surface, and point eloquently to a background carefully hidden from the public view.

It has been often said that the beginning and end of all River Plate difficulties are to be found in the Queen City, and viewed in this light, and starting from this popular axiom, we may safely attach some importance to the events that are transpiring on the other side of the river. There are many people in the Plate who consider the late events as the pretence of a drama which will end in a clean sweep of the actual men in the Montevidean Government. Yesterday we pointed to the understratum of suspicion evident in the Montevidean forces, with regard to the role that Argentines are playing in the beginning of the conflict.

The Argentine Minister near the Montevidean Government advised the Argentine refugee in the Legation to present himself to the military authorities of the Uruguay, and the officer in question followed his advice. Nobody can foresee the consequences of this step, as it may entail difficulties much more serious than those that followed the dismal Paso Hondo tragedy. It is very questionable if the Argentine Government will be put off in such a delicate matter as easily as Brazil. Brazil has so many interests at stake in Uruguay that the safeguard of same leads Brazilian diplomacy to centre more in the maintenance of same than in any exactions from the Uruguayan Government to give full satisfaction for injuries received. The Argentine Government is in a much more delicate position, since having no interests of vital importance at stake, its diplomacy must be of a nature to command the respect of its unruly neighbor. Any Paso Hondo difficulty with this country would be one of dignity and would naturally involve the Uruguayan Government in the most serious consequences. In view of such facts the attitude of the Argentine Minister in Montevideo, whilst complimentary in the extreme to President Santos, is worthy of comment. President Santos has been made the master of a situation delicate in the extreme, and much anxiety is evinced to know what he will do in the emergency. He can easily occasion an immediate turn in the situation, which may put his Government into the most precarious predicament.

Whilst President Santos detectid the attempt at insubordination in the barracks through the telephone, through which two conspiring officers communicated, and Minister Moreno gave up his refugee, another important question was at issue in Argentine waters. President Santos had issued an order to arrest an Argentine citizen on board the Cosmos in Uruguayan waters up the river; the Captain of the Port of Fray Bentos complied with the order and sent a soldier on board the British steamer to watch Mr Castro until he had reached his final destination—the jail in Montevideo. The Cosmos arrived in B. Aires with both soldier and prisoner on board, and thanks to the good offices of Prefect Mansilla, Colonel Gaudencio and others, the soldier was obliged to give up his prisoner. Mr Castro, an Argentine citizen, whose brother has been also arrested in Montevideo, is now safe in Buenos Aires.

The escape of Mr Castro from the clutches of the Uruguay police may have a very injurious effect on the Santos Government, and it is much to be feared that the Argentine refugee, surrendered by Minister Moreno, will suffer in consequence. These mere details of a very serious question point to a big storm from some quarter of the horizon. The Argentine Government has been a steadfast friend of the Santos Government, but late events have alienated all ties of friendship which united both Governments during the Volpi-Patroni business.

President Santos is at loggerheads with his country and part of its army, and has now effected a decided strain in relations with this country. He no doubt falls back on Brazil, but the probabilities point to the union of both Argentine and Brazilian Governments to cut short a situation which is gradually injuring the fair fame of the Plate, and is eloquently corroborating the deep meaning of the ominous word—South America. A joint protectorate, carried out in the most effectual and practical manner, is already looming in the horizon, and Uruguayans may thank their actual Government for the consequences.

The Equateur's Mails.

London, Jan. 9th.

The *Pall Mall Gazette* of Thursday night contained the following:—A report has reached us, which we publish with all reserve, that the Germans resident in London have received a notice, similar to that served upon them by their Government before the Franco-German war, that they may shortly be summoned home for military service.

The deaths are announced of General Sir G. Brooke, aged 90, Gen. Robert Lewis, Mr. P. H. Howard, formerly M.P. for Carlisle, and Mr. C. J. Barnett, formerly M.P. for Maidstone.

Sir Henry Meux, head of the well-known London brewery firm, and formerly M.P., for Herts, died on Monday, aged 65.

A deputation from the United Kingdom Alliance had an interview with the Malagasy Envoys, the chief of whom expressed sincere concurrence with the views of the deputation.

The Bishops to whom the selection of a new Bishop of Tasmania was intrusted have nominated Canon Sandford, incumbent of St. John's, Edinburgh.

The Admiralty has received information that most of the Bedouins concerned in the murder of Professor Palmer and his party have been captured, and it is expected that the others will be secured immediately.

Dr. Campbell, M.P., was accidentally shot in the eye while taking part in a battue at Stracathro. It is hoped that the sight will not be destroyed.

A corner's inquest on the body of Lady Petre, at Ryde, resulted in a verdict that her death was caused by an overdose of chloral taken to cure sleeplessness.

Mrs. Cooper, of Nantwich, was killed on Friday while hunting with the Cheshire Hounds, her horse falling and rolling over her.

Another fireman, Henry Berg, who was injured at the destruction of the Alhambra Theatre, died on Friday.

It has been ascertained that the total number of lives lost by the fall of a mill chimney at Bradford on Thursday week was 53.

Mr. M. S. Oppenheim, a barrister, committed suicide on Wednesday at his chambers in the Temple, by shooting himself through the head.

Louisa Taylor convicted of the murder by poison at Plumstead of an old woman named Tregelles, was executed on Tuesday in Maidstone Gaol.

The stud horse Isonomy was sold at the sale of the late Mr. Gretton's horses on Monday for 9,000 guineas.

On Thursday, Christopher Quinn, an Irishman, who a few days ago stated that he was concerned in the Phœnix Park murders, was again placed before Sir Charles Whetham, at the Guildhall Police Court. The police informed his Worship that they had made every inquiry about the prisoner, and found that he was a discharged soldier, and there was no truth in his statement, and since his discharge he had been leading the life of a rogue and vagabond. Sir Charles Whetham treated him as such, and sentenced him to two months' imprisonment with hard labour.

The screw steamer Chiapas, 2,200 tons registered tonnage, Captain Polson from Glasgow to Trinidad and Demerara, foundered on the morning of 30th ult., about seven miles south-east of Roche's Point, Queenstown, in 30 fathoms of water. All on board were saved, with the exception of one man, a fireman, named Barney O'Farrell. They were picked up from the lifeboats of the Chiapas by pilot-cutters, and were landed at Queenstown in the course of the day. The Chiapas was a new steamer, having been only launched in October, and this was her first trip.

IRELAND.

Dublin, Jan. 7th.

Mr Trevelyan, Chief Secretary, has left Dublin for a tour in the west and north-west of Ireland, to ascertain the probable amount of distress and the means required to meet it.

The magistrate here, on Monday, stated he was prepared to commit Mr. W. O'Brien, Editor of the *United Irishman*, for trial on a charge of publishing a seditious libel, but consented to adjourn the case to enable an application to be made to the Queen's Bench on the question whether evidence could be taken as to the truth of the libel.

At the Waterford Petty Sessions on Tuesday, Mr Biggar, M.P., was committed for trial on a charge of using seditious language in a speech delivered at a meeting held on December 18th in Waterford Town-hall, but he was admitted to bail.

The man Delaney, charged with attempting to shoot Mr Justice Lawson, was put on his trial on Tuesday in Dublin, but the prisoner's counsel raised an objection to the form of the indictment, which the Judge thought was worthy of consideration, but ordered the case to proceed. Subsequently the Judge held that the indictment was bad in law, and it was withdrawn. The prisoner was convicted on Wednesday of conspiracy to murder Mr. Justice Lawson, and he was sentenced to ten years' penal servitude.

Mr M'Philpin, proprietor of the *Tuam News*, was sentenced on Tuesday to six weeks' imprisonment for publishing articles tending to intimidate certain persons.

At Upper Church, Tipperary, on Monday, some Emergency constables were attacked by an armed party. The Emergency men returned the fire, killing one man and wounding others.

The *Dublin Gazette* on Friday contained a notification that in certain portions of the county Meath an increase of police force was necessary.

Mr. Walsh, Mayor of Wexford, was sentenced on Saturday to 14 days' imprisonment for publishing in the *New Ross Standard*, of which he is proprietor, remarks tending to hold up individuals to public scorn for occupying land. An appeal was notified.

Mr. Dillon, M.P., has written a letter to the Tipperary electors, stating that, in deference to the wishes of friends, he has put off resigning his seat till the first week of next Session. He denies the supposition that he resigns because he was disgusted with Parliamentary agitation. On the contrary, he believes in using every weapon honourable men can use, and retires solely on account of ill health. Mr. Dillon concludes by saying that the cause of Irish nationality has never been in a stronger position since the Union.

Defacing a Statue of O'Connell.—The large bronze statue of O'Connell, by Hogan, erected in the Crescent, Limerick, during the mayoralty of Doctor Kane in 1857, was discovered early on Monday morning to have been daubed over with yellow paint, apparently flung at the monument by some person standing outside the railings which surrounded the pedestal. The occurrence created considerable indignation among the citizens, and grave apprehensions were entertained lest it might lead to a religious feud between Protestants and Roman Catholics. The figure of O'Connell presented a most ludicrous appearance, the incident reminding one of similar attacks on King William's monument in Dublin.—Mr. Ambrose Hall, J.P., alluded to the matter as the most diabolical outrage ever perpetrated in Ireland. He stated that the monument had been cleansed, and advised the people not to get excited over the occurrence. The other magistrates concurred.

Cursing the Queen.—Before the Enniskillen magistrates, the Earl of Belmore presiding, a man named Francis Fitch was prosecuted by Sub-constable Oliver Paul for having cursed the Queen twice, while following a band on the 26th ult. He was sentenced to one month's hard labour in Omagh Gaol.

NEWS FROM EUROPE.

To-day is the six hundredth anniversary of the foundation of the reigning Austrian dynasty by Rudolph of Hapsburg. It has not been celebrated as a national festival, but merely by certain official ceremonies of the most formal description. At ten o'clock a Te Deum was solemnized at the Cathedral, in presence of the Emperor, the Archdukes, and the Court, the Archbishop of Vienna officiating. An address, attesting the loyalty of the town of Vienna to the Hapsburg dynasty, was read by the Burgomaster, after which he presented his Majesty with a commemorative medal. The Emperor, in the course of his reply, said: "The survey of six centuries firm and faithful union between prince and people encourages us to hope that this will continue, and that these good old Austrian traditions will survive from generation to generation." The Provincial Council of the Archduchy of Austria was afterwards received by his Majesty, as also a deputation from the Vienna University. Your readers are aware that the German element in Austria forms the Liberal or Constitutional party, and is now the Opposition in the Reichsrath. The majority consists chiefly of Czechs, and is clerical and reactionary in its tendencies. The articles on the Hapsburg centenary in the Vienna papers of to-day, together with numerous passages in the Burgomaster's speech to the Municipal Council, show with what tenacity the Germans of Austria hold to their traditions. On the other hand, the lukewarm enthusiasm displayed on the other side proves that little progress has been made towards the reconciliation of nationalities which was to have formed the programme of the present Cisleithan Government. If the truth must be told, the question of nationalities is secondary in the bitter struggle now pending in this country. There are Germans whose ancestors fought on the side of Rudolph of Hapsburg against the King of Bohemia 900 years ago, and who are now prominent members of the anti-German majority, such, for instance, as the Prince Liechtenstein. The pending contest is, in reality, one between aristocracy and democracy, between the partisans of clerical reaction and its opponents. But if it is carried on under the cloak of nationalities, which is more convenient to both parties. A little ordinary tact on the part of the leaders on both sides might have secured a truce of twenty-four hours, and silenced all unseemly recrimination on such an occasion as that of to-day. The six hundredth anniversary of the Hapsburg dynasty might have been a national fete, and possibly the starting-point of a new era of conciliation in the annals of Austrian domestic politics. It has, unfortunately, proved to be nothing of the kind, but has rather served to widen the breach between the two hostile camps.

Dublin, Thursday Night.

It is announced that Mr Naish, Q. C., Law Adviser, has been appointed Solicitor-General in room of Mr Porter, M. P., who becomes Attorney-General consequent on the elevation of Mr Johnson, Attorney-General, to the Bench. Several names are mentioned for the office of Law Adviser, the more prominent being Mr Peter O'Brien, Q. C., Mr Carton, Q. C., and Mr McLaughlin, Q. C.

A number of the special resident magistrates had an interview with the Lord-Lieutenant at the Viceregal Lodge to-day, and it is presumed the interview had reference to the present state of the country.

A respectable farmer named Patrick Horan, residing in the King's County, was charged at the Dublin Police-court, before Mr Keys, to-day, with having presented a revolver at a cattle-drover named William White, at Quarry-lane, on Wednesday night, and also with having a revolver without a licence. It was alleged that White was not interfering with the prisoner when he drew a revolver and threatened him, but it appeared that some persons were about boycotting him.—A man named Magill deposed that the prisoner's hat had been knocked off.—Mr Keys said he believed Horan merely drew the revolver to defend himself. He had no doubt the word "boycotting" had been used, and there was no joke in an expression like that, particularly in a dark laneway. The prisoner had a licence for his revolver in the King's County, and it was clear he was a respectable man, and he would therefore be discharged with a caution.

At Ballinrobe to-day Mr O'Byrne, Q.C., investigator under the Compensation Clause of the Crimes Act, resumed the inquiry into the claim for compensation for the murder of Joseph Huddy and his grandson, John Huddy, at Lough Mask.—Sub-Inspector Gibbons was examined. He produced an indexed map of the outrage and murders committed in the Clonbur district, which included the murder of Lord Mountmorres at Clonbur, which was taken as a centre. The scene of the murder of Gubbins was three miles from there. The Huddy murders occurred five miles away; the Maamtrasna murders nine miles off; the attempted murder of Mr. Hearne about eleven miles; Captain Boycott's farm, the incidents in connection with which illustrated the state of the country, about four miles off; the murder of Constable Kavanagh, 12 miles; the scene of a collision between the police and the people, about four or five miles. The scene of the attempt on Mr. Robinson was also in the district.

Yesterday the Tipperary hounds met at Fethard. They were met by a large number of pedestrians with "cur dogs." Shouting was kept up while the hounds found a fox, and a run ensued. Several gentlemen were assaulted with stones and sticks. At Rathkenny the huntsmen were again assaulted with stones. On Saturday the hounds were stoned at Sandy Grove.

At Mullingar to-day the inquiry into the claim for £10,000 compensation by the husband of Mrs. Smythe for the murder of that lady was continued. A number of witnesses were examined from Collinstown, who claimed exemption from the tax. They had nothing to do with the murder, and in no way sympathised with it. In cross-examination the witnesses said they had been members of the Land League until it was proclaimed. One of the witnesses said he had been secretary to the Collinstown Branch of the League. He was never charged with boycotting. He approved of boycotting to a certain extent. If he was asked to join in boycotting he would not join. He would not force people to boycott persons. He did not approve of any landlord being kept out of a fair rent, and that was his opinion on the subject. Mr. Teeling will send his report to the Lord-Lieutenant.—A second case was investigated in which the applicant Mathew Fagan claimed compensation. His case was that an armed party went to his house at night, asked if he had paid his rent, and on his replying in the affirmative, a revolver was fired, and he was severely wounded in the arm.

New York, Thursday.

Mrs Langtry is drawing only moderately large houses in Brooklyn. The preliminary sale of seats in Chicago, where she goes next, began yesterday, and was a great success. The buyers formed in line for four hours before the office opened, and two hundred were there when the sale began. Over 8,000 tickets were sold before night for the week's engagement.

The following was the closing scene of the great Belt case:—

The jury then retired, it being twenty minutes to one o'clock, and the learned judge left the bench shortly afterwards. Immediately upon his withdrawal the excitement of the spectators, who crowded the court, broke out in loud and open speculation as to what the verdict would be, and the amount of the damages given to the plaintiff in the event of the case being brought to a successful issue for him. During this interval a diverting incident occurred, in connection with the bringing in of the cast of the new Pagliatti bust, which had just been completed. The unrestrained cheers which greeted the simple ceremony of placing it on the Associate's table were turned to loud and hearty laughter as Mr. Pagliatti himself quickly followed up his terra-cotta image and posed beside it with most amusing complacency. The jury returned into court at twenty minutes past one, having been absent about forty minutes.

The Associate (Mr. Davis)—Gentlemen, have you agreed upon your verdict?

The Foreman—We find a verdict for the plaintiff, with £5,000 damages.

Immediately upon this announcement being made loud cheers burst forth from every part of the court, and two or three minutes elapsed before order was restored, while even then the cheers of the large crowd which had assembled in Westminster Hall could be distinctly heard.

The Judge—Then I understand that the other case is to be tried. Therefore I make no further order with regard to other matters, as I cannot while that case is in question take any further steps. (Turning to the jury)—Well, gentlemen, we must part; and I think that we are much obliged to you for the great attention you have paid to this case.

The jury then bowed, and left the box; and thus ended one of the longest causes ever tried at Nisi Prius, and more remarkable as the last to be decided in the ancient Law Courts of Westminster.

Many of the people in the court then pressed round Mr. Belt to congratulate him on the result, and he had to undergo a fatiguing amount of handshaking, which detained him several minutes, before he could reach the door. The moment he got out of court the crowd assembled in Westminster Hall gave him a loud cheer, then pressed on him on all sides, and at length lifted him on the shoulders of some of his sympathisers and carried him in triumph, cheering lustily all the while, through the hall and into Palace-yard, where he got into a hansom cab, and was driven off.

NEW TELEGRAPHIC COMMUNICATION

The following, which we extract from the London *Times*, may interest many of our commercial readers:—

(*By Anglo-American Cable.*)

Philadelphia, 11th.

The new Central and South American cable is actively working, transmitting European telegrams for Buenos Aires *via* the United States and Mexico. Brazil telegrams are also expected to take the same route—

To the Editor of the *Times*.

Sir,

Allow me to correct a misapprehension, with reference to telegraphic communication between Valparaiso and Europe, which the telegram from Philadelphia in the *Times* of to-day has ereated. It is therein stated that the opening of the new lines on the west-coast of South America 'saves 15 hours' time between Valparaiso and Europe, as compared with the Pernambuco and Lisbon route.'

As a matter of fact, however, the average time taken by our system in the transmission of a message between Valparaiso and Europe—*i.e.*, by the Pernambuco and Lisbon route, in conjunction with the cables of the Western and Brazilian Telegraph Company and the Transandine Company's lines, across the Andes, during the last ten days has been about six hours, the shortest time being two hours 45 minutes.

The supposed saving by the new route is, therefore, manifestly impossible.

I am, Sir,
Your obedient servant,
Alexander Wood,
Managing Director.

The Western and Brasilian Telegraph Company, (Limited),

"LOOK HERE UPON THIS PICTURE, AND ON THIS."

(*From the Diario.*)

"The Oracle has spoken: The long-eared god whose throne is on the perforated tripod in Calle Bolivar has given his final decision, and the race that has given to France the Lallys and McMahons, to Austria the Nugents and Browns, to Spain the Blakes, the O'Reillys and the O'Donnells, to Russia the Lacys, to North America Jackson, the defender of New Orleans, Sheridan, the hero of the Shenandoah, the chivalrous Montgomery, who fell on the heights of Quebec; the race that gave to America the Legion of Pennsylvania, whose blood was shed in defence of American liberty, the race that produced Shields, the only rival of Stonewall Jackson; the race that has representatives and sons in Congress and in all the Legislative Chambers of North America; the race that produced Grattan, Curran, Burke, Sheridan and Moore; the race of O'Connell and Brady, the most eminent lawyers in New York; the race whose sons fought one of the most decisive battles for South American liberty, the race that gave O'Higgins, O'Brien and MacKenna to Chile, and Admiral Brown to the Argentine Republic—the most orderly race in this country and which has contributed so much to its greatness, is nothing more than a mob of drunkards and only fit to be classified with the Chinese.

"So says the *Nacional*, whose only title to fame is its connection with a General who won his spurs far from the battle field, trembling like a lily, astride on a bullock cart. Nevertheless, there was another General Washington, who thanked the Irish for their services and said more than once that they deserved well of the country. Who are we to believe? The hero of the bullock-cart or the hero of Yorktown? "Look here upon this picture, and on this."

"According to the Calle Bolivar oracle, we are as backward as the Chinese. It is curious that its inspirer did not inform it that there is another country much nearer home than Ireland which is still more backward. I am not one of those who make statements and try to prove them by means of noisy insults. I have before me the "Dublin Directory" of 1872, which states that 2,105,958 persons out of a population of 5,798,467 knew how to read and write in 1861, although the *Nacional* declares that not more than 4 per cent of them knew as much in that year. But let us get closer to the real point at issue—the state of education at the present day—and we shall see if Ireland is, as the old fishwoman in Calle Bolivar declares, the most backward nation in Europe.

"In the 'American Almanack" for 1882, published in New York, I find the following figures:—

Proportion of people who do not know how to read or write in different countries:

Country	Year	Percentage
Argentine Republic	Recent	83
Austria (I)	"	49
Bavaria	"	7
Belgium	"	30
Brazil	"	--
China	"	50
England	"	33
France	1872	30
Germany	1871	12
Greece	Recent	82
Hungary	"	51
India	1871	95
Ireland	Recent	46
Italy	1861	73
Japan	Recent	10
Mexico	"	93
Netherlands	"	18
Poland	"	91
Russia	"	91
Scotland	"	16
Spain	1860	80
United States	1870	20

"So that Ireland is in advance of China, and both are in advance of the Argentine Republic. It wrings my heart to have to make these comparisons; but as the *Nacional*, which passes for a reliable newspaper, with a fishwife's style, has so outrageously insulted my countrymen, I am forced to do it. Let the readers of the *Nacional* bear in mind that it does not quote a single authority in support of the crimes with which it charges the Irish. It makes a great fuss about a riot by some street boys in New York. Are there never riots in the streets of Buenos Aires? Are we not all of the same Celtic Race that has its moments of excitement as well as its glories? If you want a proof of this, look at the *Nacional* itself, which has run riot against common sense, day after day.

"It still insists that, in 1840, there were only 232,000 children at Irish schools, although it is well known that there were private schools in all parts and that the children of Catholics generally did not attend the Government Schools at that time. But, may I be allowed to ask how many children there were in the Argentine Schools at that time? I will be told, and with much truth, that the Argentine Republic had only just won its political independence; and I reply that my country, in 1840, was still suffering from the effects of a tyranny unequalled in the annals of the world. Who does not know the history of the siege of Limerick! One of the most brilliant passages in Macaulay's work is that in which he relates how Patrick Sarsfield executed the famous manœuvre by which, availing of the darkness of the night, he made a sortie with a troop of cavalry and destroyed a great part of King William's artillery; and how, afterwards, when they attempted to take the city by storm, the women fought side by side with their husbands and brothers against the oppressor of their country, and forced the King to raise the siege. Nevertheless, this fact, which every schoolboy knows, is unknown to the great historian of the *Nacional*, as he tells us that the Protestants celebrated their victory over the Catholics—a victory they did not win.

"The Treaty of Limerick guaranteed to the Catholics their civil and religious rights, and all lesser ones. The *Nacional* knows how that Treaty was violated ere its ink was dry. Then the Irish people entered on that long night of slavery which lasted more than a hundred years, and, according to Dr Johnson, was worse than the worst persecutions of the Cæsars. God help the General, if he had lived in those times, when a reward of £5 sterling was offered alike for the head of a wolf or that of a school-master.

"Let the *Nacional*, therefore, follow its course of attacking everybody in turn. The Irish will look on with the same indifference as that with which they listen to the cry of the plover in the camp. But it is impossible that a cultured and progressive nation like this, in face of the figures I have given above, can much longer tolerate an old wind-bag whose first principle is intolerance, but who nevertheless aspires to direct its destinies.

EARTHQUAKE-PROOF ARCHITECTURE.

To the Editor of the *Standard*.

Dear Sir,

I think that I will be doing a public service, especially to your Chilian and Mendoza exchanges, by drawing their attention to the following paragraph which I have taken from the review of Dr. Dresser's *Japan*, in a late number of the *Spectator*.

The extract describes how the Japanese Architects have protected their tall pagodas from the effects of the earthquakes so common in their land, and from its ingenuity, it must wring from us another tribute to the genius of that wonderful people.

Yours &c.,
Sphynx.

"A notable instance of the Japanese understanding of the conditions under which they exist occurs in the manner of giving security to pagodas. Pagodas are often of great height, yet many have existed for seven hundred years, and have withstood successfully the many vibrations of the ground, which must have inevitably achieved their overthrow had they been erections of stone or brick. When I first ascended a pagoda, I was struck with the amount of timber employed in its construction; and I could not help feeling that the material here wasted was even absurdly excessive. But what offended my feelings most was the presence of an enormous log of wood, in the centre of the structure, which ascended from its base to its apex. At the top this mass of timber was nearly two feet in diameter, and lower down a log equally large was bolted to each of the four sides of this central mass. I was so surprised with this waste of timber, that I called the attention of my good friend Sakata to the matter; and especially denounced the use of the centre block. To my astonishment, he told me that the structure must be strong to support the vast central mass. In my ignorance I replied that the centre part was not supported by the sides, but upon reaching the top I found this monstrous central mass suspended, like the clapper of a bell; and when I had descended I could, by lying on the ground, see that there was an inch of space intervening between it and the earth which formed the floor of the pagoda. The pagoda is to a Buddhist temple what a spire is to a Christian church and by its clever construction it is enabled to retain its vertical position even during the continuance of earthquake shocks, for by the swinging of this vast pendulum the centre of gravity is kept within the base. I now understood the reason for that lavish use of timber which I had so rashly pronounced to be useless; and I see that there is a method in Japanese construction which is worthy of high appreciation. In the absence of any other instance, the employment of this scientific method of keeping the pagoda upright shows how carefully the Japanese have thought out the requirements to be met."

EDITOR'S TABLE

The news by the French mail is rather interesting: The signs of coming war continue: Russia is still sending troops towards her Western frontiers, and is also massing men on the frontiers of Kars, and secretly fomenting revolt in Armenia. Meanwhile, the bad blood between Italy and Austria is rising fast. In Rome a man fired a revolver at the shield over the Austrian Embassy, and the Italian Press is crying out that Germany has completely forfeited the sympathies of Italy. If this kind of thing grows to a head, the cards in the apprehended game of war will be held by Russia, France and Italy on one side, and Germany and Austria on the other. Time will tell.

We are requested to state that, as Carnival will commence on Sunday next, St. John's Anglican Church will be closed on that day; but there will be service in the Church of the Holy Trinity, Lomas, at 11.30 a.m., with a celebration of the Holy Communion.

The fashionable Turn-Verein was crowded on Monday night. The gardens presented a beautiful aspect, all the tables crowded with ladies and gentlemen. The concert, as usual, was a great success, and the musical "menu" was "hors ligne." Great improvements are contemplated in the club. A splendid building will be erected on the site, with concert and ball-rooms, and ample accommodation for all the wants of a first-class club. Five hundred thousand dollars have already been subscribed.

The Variedades Company is coining money. The theatre was crowded on Monday night, and nearly all the boxes were taken. The company is very good, indeed, and certainly one of the best ever seen in the Plate. Tickets are very cheap, and the fact may account for the crowded houses that applaud the artists.

The news from the sister city, in another column, is rather important. The Argentine prisoner who was coming down in the Cosmos had rather a narrow shave of it. Once in Montevideo, he would have probably "disappeared" for ever and a day. Some people discover the elements necessary for a stiff international breeze in current events on the other side of Jordan.

Who wants Gosnell's famous Pomitos? Whoever does can buy them at the cheapest price at No. 88 Calle Florida. They are High Life articles, but any man with a fairly decent hat on him can obtain them. Some High Life men wear shocking bad hats. No "wide-awake" need apply.

We must compliment our talented colleague and neighbour, Dr Daireaux, on his truly splendid oratorical display at the Gambetta Funeral. The dead celebrity in whose honour he spoke could not surpass such an oration. Dr. D. ought to be in the French Chambers, where really great orators are rather scarce at present, though fairly good ones are numerous enough.

At the Municipal meeting yesterday there was no quorum, and hence no further drawing for the new Municipality could take place. Mr. Alvear named Mr. Iturriaga and Dr. Parody as a special Corso Committee for Carnival. We hear that the Corso streets will be beautifully adorned this season, as the Municipality has given subscriptions to the street committees.

The heat yesterday almost equalled the first week in January. It marked 90 in front of our office, and it looks very like as if February will be a roasting hot month. The grapes in Flores are now ripe, and selling at $22 m[c] per ar

"Coming events cast their shadows before." Our recent remarks as to an Imperial or Royal Restoration in France, which our French subscribers called gush, or gibberish (we forget which), and our English ones gospel, seem not to have been so very wide of the mark. In Montevideo they have telegrams of revolutionary symptoms in Paris, with cries in the streets of "Vive l'Empire!" "A bas la Republique!" This is exactly what we predicted, and if not confirmed now, it will be, perhaps before this year is out.

In yesterday's issue we had a tit-bit for the ladies in the shape of some news about the Origin of Species—we beg a million pardons,—the Origin of Stays. To-day we have something about Shirts, for our own sex. Any man who may dance his shirt, collar, and wristbands into a pulp at the Carnival balls, has only to call on the enterprising M. Chauvet of 13 Calle Florida, who will repair damages and set him right again in five minutes, at the most moderate cost. Monsieur Chauvet favoured us with the following polite note yesterday:—

30/January/83

To the the reporter of the *Standart*.

Dear Sir,

You will oblige me very much to insert in your well-knowed paper, putting to the knowledge of the public, that my house should be open every night of ball up to three o'clock.

By that, I think I will satisfied my customers, because many times the washwoman delay of bringing back at time, things as: shirts, handkerchiefs etc, wich articles I have nice selections.

I have the honor Dear Sir to put my house & mayself to yours orders & will oblige

Yours truly
E. Chauvet.

Florida 13

Our quondam colleague, Hector Varela, writes to the *Pueblo* that Spanish emigration to the Plate has increased four-fold since he was named Argentine Emigration Agent there. We regret to say that the brilliant orator of Geneva confesses that the pecuniary result of his patriotic labours is not what it ought to be.

The members of the Scotch Church are reminded of the meeting to be held in the School-room this evening, and are requested to be there punctually at eight o'clock.

The pic-nic of the Scotch Sunday School will come off at Mr. Tupper's quinta, in Lomas, on Friday next. The children are requested to be at the Plaza Constitucion Station at not later than a quarter to nine o'clock. Train starts at 9.5 a.m. Those who contribute hampers are requested to have them at either the Central or Constitucion Station at 8½ a.m. The little people will return by the train that leaves Lomas at 18 minutes to seven, and their parents or friends are requested to be at the Constitucion Station to meet and take charge of them.

The Scotch School will re-open tomorrow, and all town pupils and intending new ones are expected to attend. There will then be another "vacacioncito" until Ash-Wednesday, when work will begin in grim earnest.

We find the following in the *Times*: "The death has taken place, at Coptfold-hall, near Chelmsford, of the Hon. Arthur C. A. Petre, fourth son of William, eleventh Lord Petre. The deceased gentlemon was an active magistrate for the county of Essex, and was well-known in Roman Catholic circles throughout the country. He was born in 1827, and married in 1855 Lady Catherine, sixth daughter of William, fourth Earl of Wicklow, by whom he leaves a family.

It is announced that only one High Life family will open their salons this year during Carnival. "Tant mieux." Carnival is a stupid relic of Paganism, and we may say barbarism, and it is well to see our upper classes giving it the could shoulder at last. The social evils that flow from this annual Saturnalia undermine society, as Dr Coni's birth statistics amply prove.

A middle-aged lady at Moron had a row with her son the other day in consequence of her being far more than "three sheets in the wind." She at once adjourned to the 'algibe" and flung herself in; but was pulled out in time and put to bed, to sleep off the effects of her potations.

"I want to engage your services," said a man to a lawyer.

"All right, sir, be seated. What is the case?"

"There's a man in my neighborhood named Alex. Hippen. I want you to prove that he stole a saddle."

"Did the saddle belong to you?"

"No"

"But then you are the persecuting witness?"

"No I don't propose to have anything to do with the case.',

"Then why do you want me to prove that Hippen stole the saddle?"

"You see, I stole the saddler myself, and if I can prove that Hippen stole it, I'm all right."

"Ah, I see. We'll fix that. Of course we can prove that he stole it.

—*Arkansaw Traveller*.

A CURE FOR SCIATICA.

Vanity Fair.

A cure for neuralgia and sciatica and, as I am told, an unfailling one is too valuable not to be recorded.

An English officer, who served with distinction in the war with Napoleon, was once laid up in a small village in France with a severe attack of sciatica. It so happened that at that time a tinman was being employed in the house where he lodged, and that this tinman, having been himself a soldier, took an interest in the officers case, and gave him the cure which, in this instance, succeeded immediately and forever, and which I am about to set down. It is at any rate so simple as to be worth a trial.

Take a moderate-sized potato, rather large than small, and boil it in the quart of water. Foment the part affected with the water in which the potato has been boiled as hot as it can be borne at night before going to bed; then crush the patato and put it on the affected part as a poultice. Wear this all night and in the morning heat the water, which should have been preserved, over again, and again foment the part with it as hot as can be borne. This treatment must be persevered with for several days. It occasionally requires to be continued for as much as two or three weeks, but in the shorter or longer time it has never yet failed to be successful.

Dr. Ayer's
Compound Extract
OF
SARSAPARILLA

For the certain and radical cure of all those diseases which arise from
Impurity of the Blood.

It is very foolish—indeed it amounts to imbecility—to attempt experiments with inferior preparations composed of worthless drugs or of such indigenous plants or herbs whose ordinary effects are not confirmed by Medical Science, whilst the malady with which you are attacked is daily gaining ground is your system.

Put aside all thoughts of these and take instead and at once, a remedy guaranteed by actual experience and by the medical faculty all over the world, to be unquestionably the most efficacious in all Diseases of the Blood or Blood Poisoning.

Dr AYER'S Compound Extract of Sarsaparilla is a well-known remedy of 40 years standing, and is prescribed by all eminent physicians throughout the world. Hundreds of thousands of sick and infirm persons have realized the benefits arising from the use of this truly honest medicine; and they are so many evidences of its incomparable virtues and of the good results obtained by their faithful use.

Imperishable Fragrance.

Murray & Lanman's
CELEBRATED
Florida Water.

The richest, most lasting, yet most delicate of all perfumes for use on the Handkerchief, at the Toilet and in the Bath, delightful and healthful in the sick room, relieves weakness, fatigue, prostration, nervousness and headache. Look out for counterfeits, always ask for the Florida Water prepared by the sole proprietors, Messrs. Lanman & Kemp, New York.

For Sale by Perfumers, Druggists and Fancy Goods Dealers.

REFRESHING FRAGRANCE!

Neither the French, English nor German perfumes possess any refreshing or invigorating properties their heavy, sweet smell quickly becoming oppressive and disagreeable; not so with the fresh floral fragrance of MURRAY & LANMAN'S FLORIDA WATER, which, after years of constant use, is found more refreshing than at the first trial.

POMADE.

This is the best hair dressing known. It beautifies and strengthens, while most of the preparations now so numerous, injure the hair and cause it to fall off. In proof of this, notice the thousands of young men in this city who are losing their hair. If you would avoid this misfortune use Pomade de Vaseline. Thousands have used it with the best results and in no case is it injurious.

Patacon	25.01
Cedulas A	100½
Cedulas E	84⅞
National Bank Shares	101⅞
National 5 o/o	71⅞
Old Gas Shares	1,450 m/c.

The market opened this morning with the activity that generally precedes the liquidation day of the end of the month. Montevidean news was at a discount, as the share bulls calculated the probabilities of a heavy delivery to-morrow, whilst the bears centred all their anticipations in the buying National Bank Shares to-morrow under par. Large operations continued to be passed over to next month at 1½, which is a great shave; money is meantime advanced on the stock under fair conditions at from 9 o/o to 10 o/o per annum.

The push of the bulls was felt in the market last night and early this morning, but the bears carried their point and the stock closed at official hours at decidedly weaker rates. 1,450 shares changed hands for to-morrow; rates opened firm at 103, but fell gradually to 101⅞, closing price. 1,300 shares were sold for the end of next month; prices opened at 104½ and closed at 103½. Operations during official hours were much larger than appeared on the black board, as large amounts were passed over to February and not marked.

The report of the National Bank for the past year appeared to-day. The perusal of same shews the very satisfactory condition of the establishment. Its emission, deposits, discounts, drafts, profits and credit are steadily increasing. Its development keeps on a par with that of the country and its influence is felt all over the nation. The subscription to the new shares for the increase of the capital of the Bank was most successful: 74,327 shares, of which 9,215 were cash and the remainder on time. The subscribers number 985, as follows:—

One subscriber for 3,000 shares	
Five do	2,000
Fifteen do	1,000
964 do	500 and less.

The Board of the Bank advanced funds to several well-known clients in order to enable them to subscribe to the increase of capital. The Board has thus helped the subscription, consulting its own interests and the character of the subscribers. The Bank has in its vaults $f.8,571,000 in National Bonds and $f.450,000 in Treasury Bills. The Board hopes to negotiate these Bonds at no distant period. It has been decided to issue new notes on the standard of the National dollar, which may be converted at the Bank or at any of its branches. This measure will give all the notes of the Bank uniform value. These notes will represent gold and not silver, because the capital of the Bank and its shares are in gold. The fixed dollar note is maintained in the capital of the Republic in order to facilitate its circulation, since its value coincides with that of the patacon note of the Provincial Bank. The circulation of the notes in this city has, therefore, greatly increased and is now accepted by all the private banks. Over $f.4,000,000 of notes of the Bank are now in circulation. Should the Mint coin this year all the gold as prescribed by the coin law, the Board expects to increase the circulation of its notes to eight and ten million patacons. The branches of the Bank have given most satisfactory results, as can be seen by the following percentage of profits:—

Gualeguay	64.74 o/o
San Luis	42.25
Gualeguaychu	40.35
Parana	27.33
Tucuman	25.08
San Juan	21.70
Concepcion	19.91
Mendoza	17.21
Corrientes	16.77
Rosario	14.66
Santiago	14.46
Salta	13.29

The following figures will be found interesting; they afford a pleasing and comparative table:—

	1882.	1881.
	$ fts.	$ fts.
Discounts	23,756,365	16,883,109
Deposits	8,882,737	4,923,515
Drafts, etc	19,986,554	16,007,337
General movement of capital	493,462,316	321,141,598
Profits	826,616	819,672

The profits of the branches of the Bank in 1882 amounted to 416,125$ fts against 323,485$ fts. in 1881. The increase in the profits of the branches is remarkable. Protested bills a/c. has been reduced from 1,632,284$ fts. in 1876 to 439,818$ fts. at present. Deducting from the latter amount the actual reserve fund, protested bills a/c. only amounts to 286,217 $ fts. The report is the most favourable one ever published by the Bank, and reflects the greatest credit on the able management of the talented President, Dr. Wenceslao Pacheco.

Operations in Cedulas ruled very active this morning and prices are maintained. A few thousand Series A were sold at 100½, and 24,000 Series E at 84⅞-⅝ for cash. Twenty thousand were sold for to-morrow at 84⅞. Twenty-five thousand were sold for the end of next month at 85¼ and 85. Several thousand were sold for the end of March at 85½. The market is very active and large operations are anticipated to-morrow. Over 100,000 Cedulas were sold during official hours.

Over 13,000 National 5 o/o were sold to-day at 71⅞; also a few old Gas Shares at 1450 m/c each.

The gold market rules very quiet. No operations of importance were reported to-day. The rates for cash continue more or less the same. The money market shows no change, and discounts continue difficult. Exchange rules flat and freights continue firm.

The Fifeshire has engaged a full cargo of 2000 bales of wool; 800 bales in this market, and 1200 bales in Montevideo.

The Muñoz sugar factory in the province of Tucuman is reported sold for the round amount of $f.250,000. Buyers, Messrs F. Bustamante and F. M. Belaustegui. This sugar factory is one of the important establishments of Tucuman.

There is no more eloquent proof of the progress and great development of the country than the returns of the railways. The following comparative figures of the returns of the Andine Railway for the first 11 months of 1881 and 1882 shew the prosperity and advance of the Interior.

	1881	1882
	$f.	$f.
Returns net	29,347	105,910

The returns of 1882 exceed those of 1881 by $f. 76,500. Taking into account the average returns of the line since it was constructed, it must be confessed that the increase of traffic on the line baffles everything.

The sales at the ring were as follows:—

Cedulas—
For cash A 4,000 at 100½
For cash E 24,000 at 84⅞-¾-⅝

Messrs. Baltar & Quesada sold to-day the stallion Cradle for 33,000 m/c; buyer, Mr M. Benitez. Also the bull Lord Hudson 5th for 3,800 m/c, buyer do.

1,000 horse hides from Repetto's saladero, of 34 lbs., were sold to-day at 22 rls.

Large amounts of money were taken up to-day on shares at 80 o/o, at from 9 to 12 o/o per annum.

The wool market ruled rather dull to-day. Prices show no change. Mr E. Casey sold in the Once this morning 2,000 arrobes at 79 % per arrobe.

A new Meat Company is about to be established. The new Company has a model system of preserving meat for any length of time and at a smaller cost than any other invention of the kind. The formation of this Company was talked of some time ago.

Several thousand Shares were sold during afterhours at 101½-⅝-¾ 102-¼. The market closed firm at 102½ for to-morrow. There were buyers for the end of February at 104

Messrs. Bullrich & Co.'s mammoth auction of stock from the Gandara Estancia at Chascomus was a great success. The animals sold as follows:—

Notice to Flax Growers.

The undersigned is now prepared to supply Flax Growers with specially constructed machine, with reversible gear for making tow or scutching the fine fibre.

Their suitability for the above purpose cannot be denied and their simplicity of working is such that a youth of 12 years can manage them with perfect safety. The machine is so constructed that the breaking and scutching processes are performed at the same time, so that there are in reality two machines combined in one, doing their work simultaneously.

The machine being constructed on wheels, can be easily moved to any part of the lint field.

For cheapness the price will be so reasonable that it will come within the reach of all, and for durability and completness in doing their work none has as yet been offered with such advantages to cultivator of Flax.

For further informations please apply personally or by letter at my address.

Value of Coins.

Regarding the value of the coins in circulation in the Interior, the National Executive Power has issued the following decree:

Finance Office of the Nation
B. Aires, Jan. 4th, 1883

Having seen the petition in which the merchants of Tucuman ask that the value of the Bolivian 'chirola' be fixed according to Nat. currency, and in view of the report by the 'Contaduria General,' and considering:

That said coins have been valued by successive decrees according to their metallic value in accord with the alternatives of silver in universal currency, and accordingly said value has been received and delivered by the fiscal offices of the Nation.

That the resolution of the 2nd Dec. 1882 establishing the price for buying foreign silver, for re-coinage, will not interfere with said value.

That the difficulties which the petitioners feared cannot occur, since they refer to the currency they have, and it has a legal, valued circulation.

That all the obligations assigned to the Bolivian dollar in the different provinces of the Interior has always carried explicitly the determined value that in each contract is understood by the phrase 'Bolivian dollar,' and its metalic conversion corresponding according as the case may be.

That though in the provinces they have had Banks of emission regulated according to the value of the Bolivian dollar, it has not been at all uniform, since their notes during the period of their convertibility are not equal to the Bolivian dollar of two cuatros, since in San Juan, Cordoba and Santa Fe they emit it at the value of $fts. 0.75, whilst in other places the value of the 4 Chirolas is issued at 0.14 c. fts or 0.56 fuertes, following the monetary system of each place. There are even some banks that issue the name of Bolivian dollar notes of $f.0.75 cent in one branch whilst in another branch of same bank they are issued at 0.56 c. fuertes.

That they should not confound the various unities that under the name of 'Bolivians' have circulated in the Interior, composed of a number of moneys of fixed value, with the Bolivian dollar called 'Efectivo' which is composed of two cuatros, withdrawn from circulation by decree 6 June 1876, but has been circulating privately, causing the decree of the 31st Oct. to be issued.

That the meeting called by the Contaduria settles the case in question, and all others of the same nature, and the question of fixing the value of moneys in legal circulation or tolerated in the country can be considered arranged.

By these rules and in conformity with the previous reports, the above question must be arranged by the decree of the 2nd Dec. 1882. Let this be made known to the Supreme Government of Tucuman with transcription of the Report of the Contaduria, and let it be published.
